

New Continuing Ed Course: Learn about the practical, local applications of your subject!

Teaching Employees is a summer course that will explore Central Iowa's need for technically trained workers and teach you how to integrate soft skill building into your lesson plans. In addition to keynote and panel presentations, the course will feature tours of community college facilities and local businesses. Transportation is provided from Iowa Valley Grinnell to each day's location and tours.

This course is designed especially for junior high and high school teachers of any subject, but is open to all teachers, regardless of grade level. We hope you will join us!

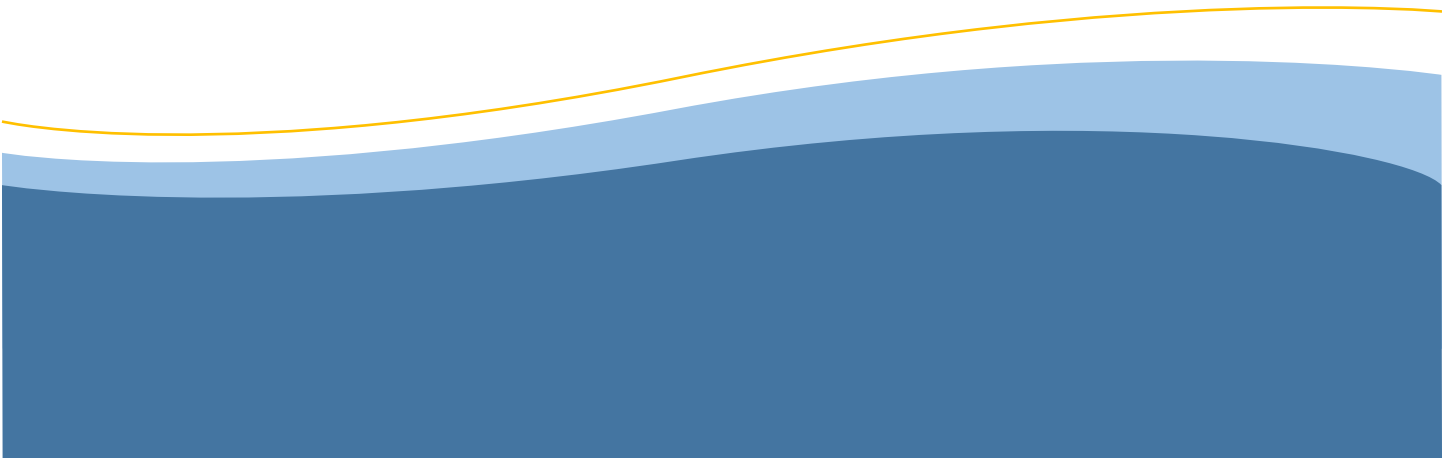

June 26 to June 29, 2017 with follow-up dinner on September 26.

Register on the AEA 267 website though the Professional Learning page. **Teachers will earn license renewal credits for their participation.**

Registration Information
